

Innovative closure system – no odours

Fits perfectly on Euro pallets – four boxes per layer

Removable door – even if the boxes are stacked

Five slide-in grooves for GN trays and GN containers

Stackable thanks to the secure locking feature

Sturdy and produced from one piece: for a long service life

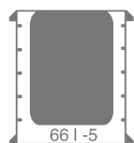

KÄNGABOX® Tower GN Euro

The Gastronorm front loader for Euro pallets.

The size of a quarter of a Euro pallet and a perfect Gastronorm fit: The KÄNGABOX® Tower GN Euro is the ideal solution for catering transport. A solution that is particularly simple and easy to handle. This is offered by the front loader with its locking feature for stacking, the innovative closure system for secure insulation and the sturdy material. Another plus: The entire door can be removed, thereby simplifying loading and unloading – even if the boxes are stacked.

- Fits perfectly on Euro pallets: four boxes per layer
- Five slide-in grooves for GN containers and GN trays
- Easy handling thanks to the slim design without protruding handles on the sides
- Easy to clean thanks to the special surface: dishwasher-safe up to 80°C
- Food safe as confirmed by ISEGA
- Innovative closure system for secure insulation – patent-pending
- Ideal for supporting cold chains according to HACCP standards
- Ideal for snacks
